

Safari Zoo Run 2019

On 24 February 2019, 13 colleagues along with family members went to Singapore Zoo to take part in the “Safari Zoo Run” activity.

The day started early for those who entered for 12km competitive run while others participated in the 4km walk. It was a crowded event but allowed enough space to run at an individual pace or stroll to enjoy the scenery.

On a warm morning, everyone got to see the Singapore Zoo, Night Safari and River Safari exhibits amid shady paths. The energy levels were good as the peaceful surroundings presented an ideal condition to exercise. Overall, it took an average of 2 hours to complete the distance and the team thoroughly enjoyed the time spent.

The Company congratulates the participants and hopes it was a good day to build family bonds along the way.
