

Your Partner,  
Sustaining a Green Environment  
with Piping Systems + Solutions

“ Our **VISION** is to be a global integrated service provider known for our quality and reliability in manufacturing, distribution and environmental solutions. ”

2016  
& beyond

Integrated solution provider in water and wastewater treatment with upstream manufacturing and distribution of steel product capabilities

Expanded to downstream environmental solutions business

2005

2003

Listed on Singapore Stock Exchange (“SGX”)

Ventured to upstream manufacturing of steel flanges business products

2000

1980

Focused in sales and distribution of stainless steel piping products

Founded in 1977 for sale of general hardware products

1977

# Our Businesses & Services

## Manufacturing

Manufacturing of forged steel flanges

## Distribution

Distribution of stainless steel and carbon steel piping products & trading of flat products

## Environmental & Engineering

Provision of renewable environmental solutions in water and wastewater treatment services

# Manufacturing

---

AnnAik's manufacturing facility in Malaysia is equipped with the latest production technology. The Company manufactures forged steel flanges under "SHINSEI" brand name and is also an OEM manufacturer for other approved brands in the world. The plant is capable of producing stainless and carbon steel forged flanges of all dimensions, specifications and standards. The products are exported to markets in Europe, USA, South America, Middle East, South Africa, Japan, Australia, New Zealand and the ASEAN countries. The plant adopts and operates proper production procedures and management systems that meet international standards such as ISO 9001:2008 , PED, ClassNK, CRN certifications and etc.

# Distribution

---

AnnAik is a leading distributor of steel piping products in Singapore. The products include pipes, flanges, elbows, tees, butt-weld fittings, high pressure forged fittings, valves, lap-joints and etc with more than 10,000 SKUs. These products are used in diverse industries ranging from marine engineering, offshore, shipbuilding and repair, semiconductor, oil and gas, petrochemical, utilities, pharmaceutical and food processing. We serve over 450 customers globally and are awarded with ISO 9001:2008 for quality management operations and bizSAFE accreditation. AnnAik's trading arm is mainly involved in bulk sale of primary and secondary flat products such as sheets, plates, coils and etc.

# Environmental & Engineering

The environmental solutions business focuses on build, operate and transfer (“BOT”) industrial wastewater treatment plants in China. These industrial wastewater treatment plants are capable of treating up to 135,000 metric tons of industrial wastewater per day. We also own the technology for treating rural wastewater which involves providing rural wastewater treatment equipment and system with after sales maintenance services to governmental operators in China. In Singapore, we have broadened our capabilities to include consulting service and undertaking turn-key projects in water resource management to governmental and commercial operators locally and the South East Asian countries.
