

NUS Giving Run Big 2019

On 29 September 2019, 12 colleagues along with family members went to National University of Singapore to take part in the “NUS Giving Run Big” activity.

The morning run started at 7am with all taking part in the 10km category event.

The weather was ideal as everyone set off around the compound of NUS, going through various faculties, football field and a number of slopes. There were a few first timers and they gamely took on the challenge. The route was anything but easy and with great determination, the team finished well with an average of 1.5 hours taken per person.

The Company congratulates the participants and believes it was a good Sunday spent for a wonderful cause.
