AngWei Group profile

AngWei Group is a Sino-foreign joint venture. The Chinese investor is Dr. Qiu Jiang Ping, a well-known professor at Shanghai Jiao Tong University with strong technological background. The foreign investor is AnnAik Limited, a Singapore-listed company whose main business is in stainless steel piping products; including pipes, fittings, flanges and valves. With over 10 years of investment experience in China, AnnAik Limited has also been involved in sewage treatment projects, seawater desalination and hazardous waste disposal projects in Singapore, Malaysia, Indonesia and China.

With advanced technology developed from Shanghai Jiao Tong University, AngWei Group has been unwavering in its continuous innovation to open up market in the environmental and ecological aspects so as to stay at the forefront of competitors. Leveraging on its financing, technology and capital strength, combined with BOT, BOO and other flexible modes of operation, AngWei Group is able to undertake municipal and industrial wastewater treatment along with the city water ecological restoration and other environmental protection projects.

At present, the group consists of AngWei Environmental Ecological & Engineering (Shanghai) Co., Ltd, ChangXing AngWei Environmental & Ecological Engineering Co., Ltd, ChangXing LiJiaXiang New Era Wastewater Treatment Co., Ltd, ChangXing LinSheng Wastewater Treatment Co., Ltd, ChangXing WuSheng Wastewater Treatment Co., Ltd, Shuanglin (Huzhou) Wastewater Treatment Co., Ltd and Changxing AnYi Water Treatment Co., Ltd. Angwei Group currently has five wastewater treatment plants and two water reclamation projects under build-operate-transfer ("BOT") model in Zhejiang Province.

Mr. Ow Chin Seng, Executive Chairman of AnnAik Limited

Dr. Qiu Jiang Ping, CEO of AnnAik Limited, China (Environmental)

Purpose, principles, objectives

Purpose: To develop new and innovative services to the whole country

Principle: To develop leading technology, reliable work quality, good business reputation and flexible operation mode

Goals: To be a people-oriented, a first-class environmental protection enterprise

Projects serviced by AngWei Group

Urban sewage treatment projects

Treatment of urban city wastewater projects includes domestic sewage, industrial wastewater, livestock and poultry breeding wastewater treatment. Services provided by the company include design, construction and operation management of wastewater treatment facility.

Urban residential water treatment projects

The company provides customers with complete set of services, including project design, construction , operation management, as well as free training.

Rural wastewater construction, operation and maintenance projects

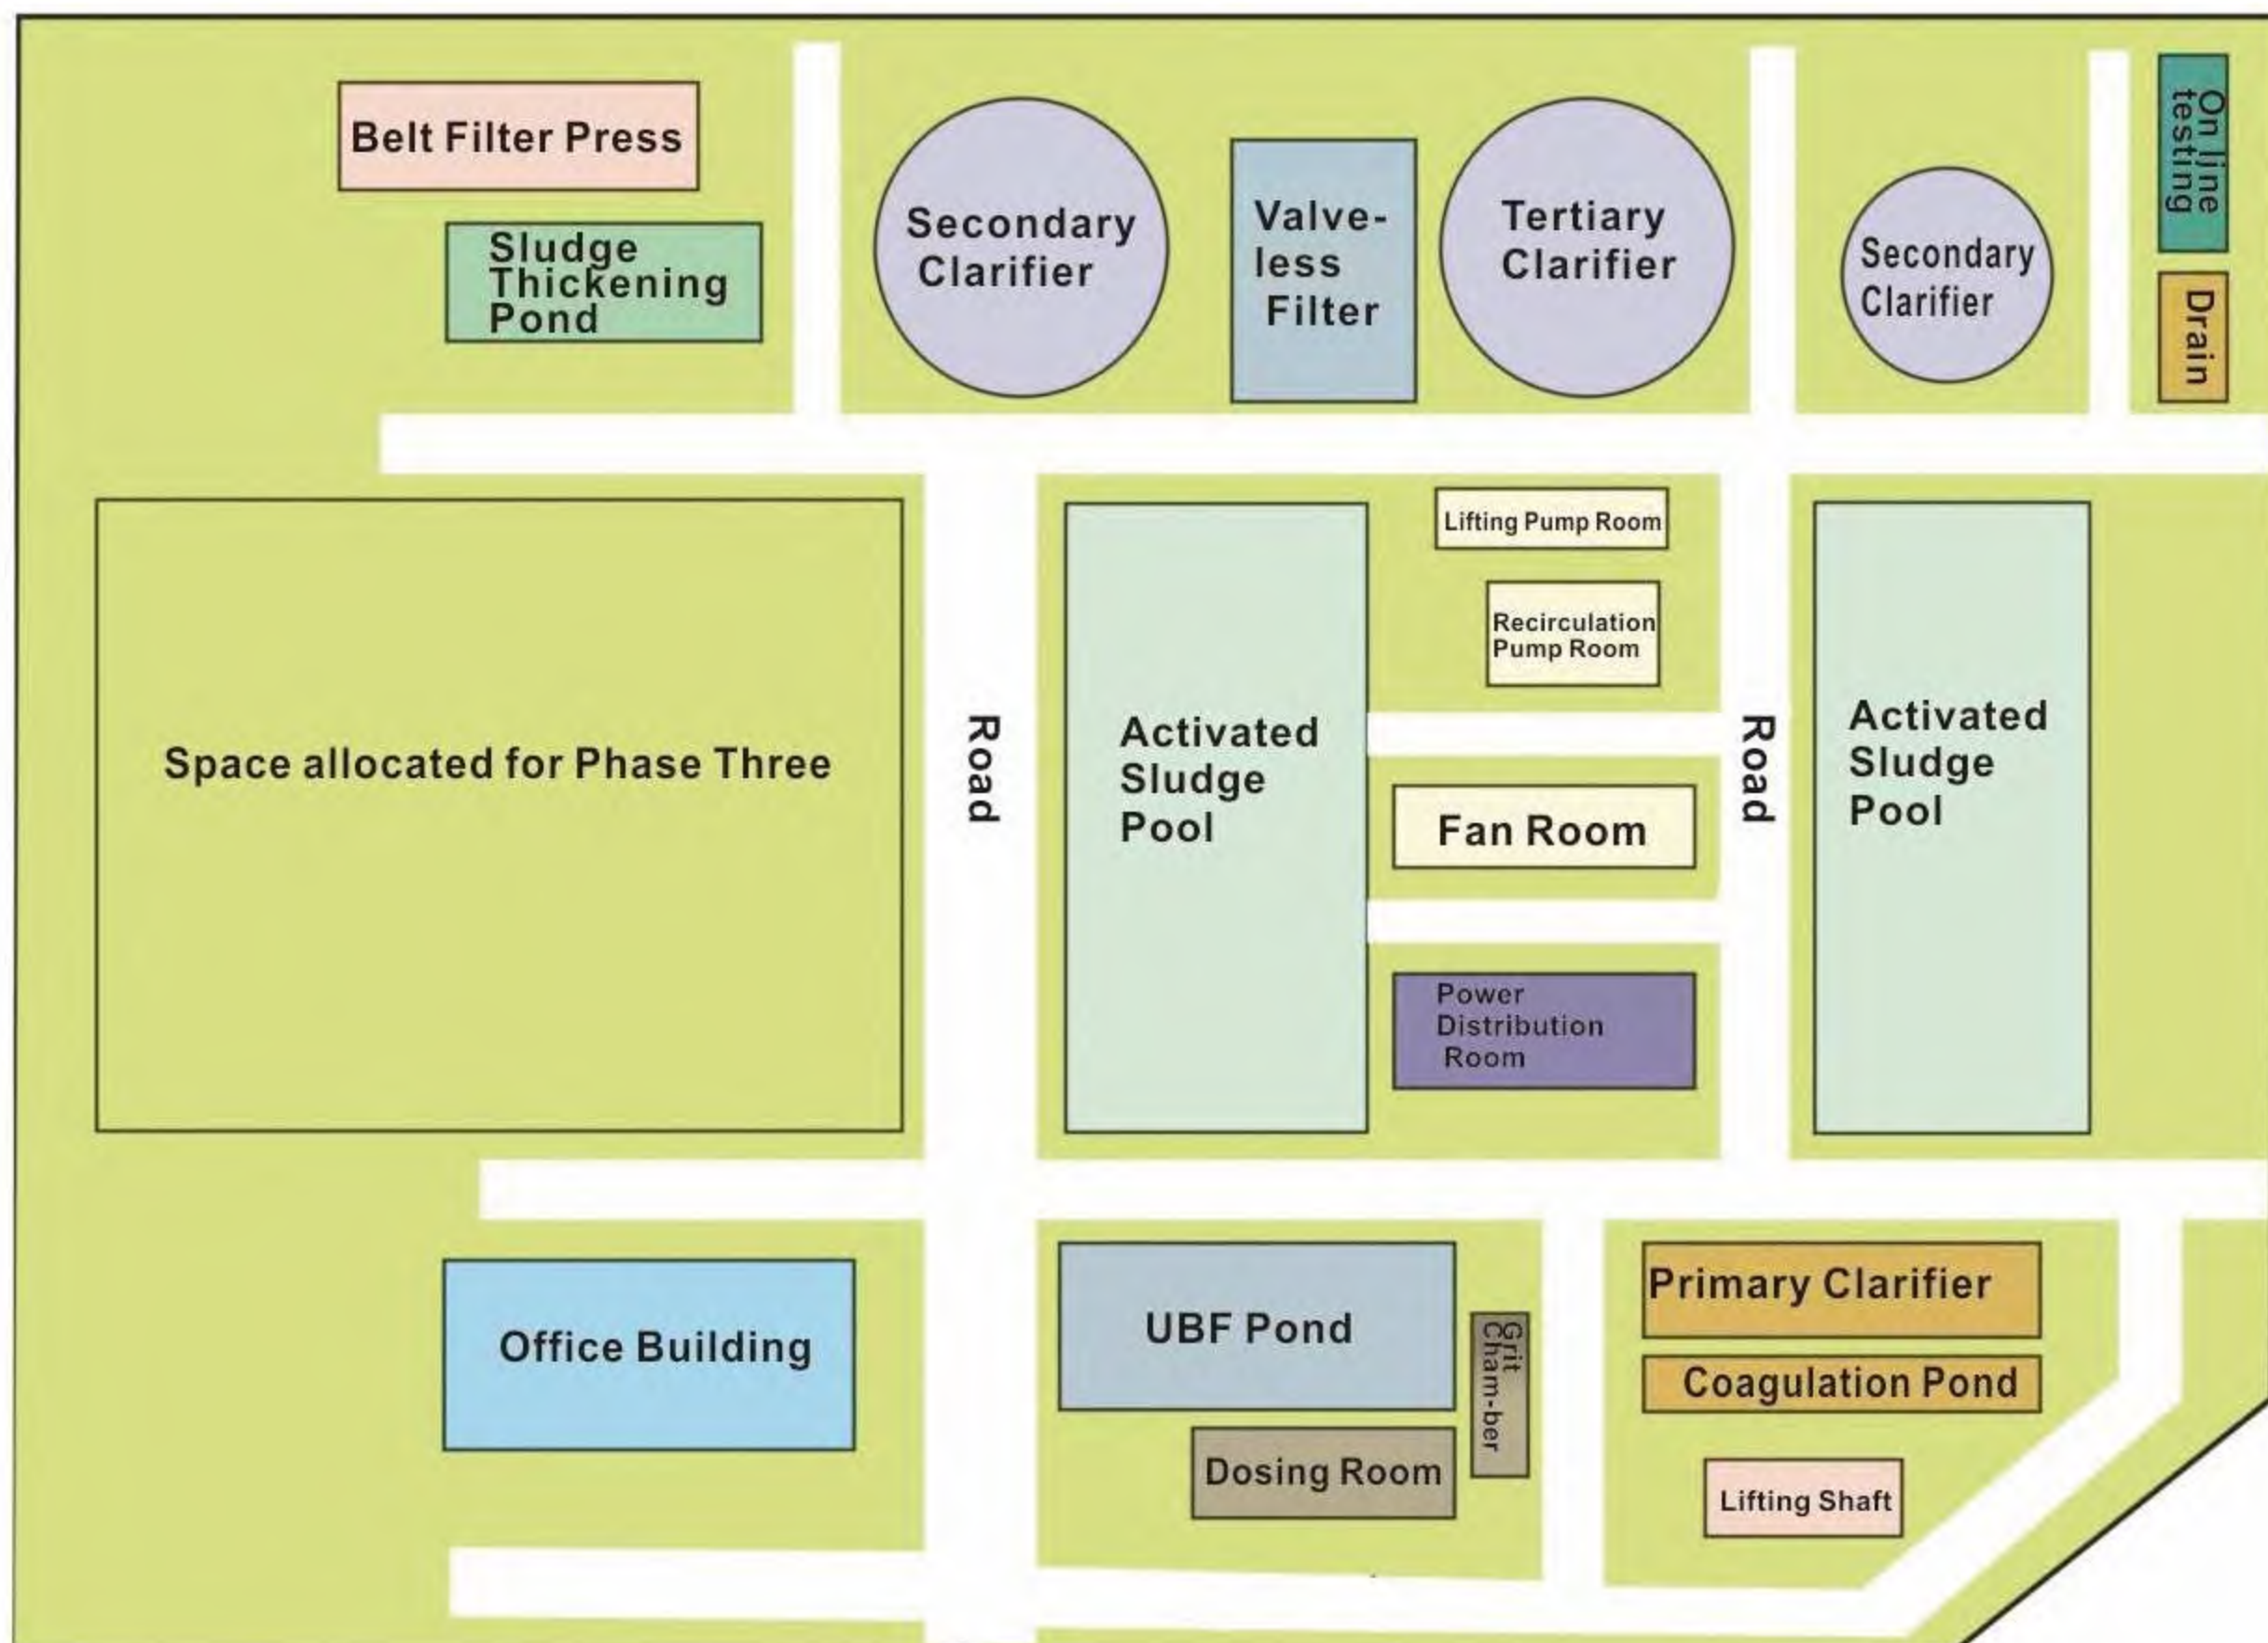

The company provides the full set of services including design, construction, operation and maintenance for centralized and decentralized rural wastewater treatment.

**To be a people-oriented,
first-class environmental
protection enterprise**

ChangXing AngWei Environmental & Ecological Engineering Co., Ltd

ChangXing AngWei Environmental & Ecological Engineering Co., Ltd located in ChangXing Huaxi Street Industrial Park, is a Sino-foreign joint venture by AnnAik Limited, Singapore and Changxing Runjin Environmental Engineering Co., Ltd. The Company has a registered capital of RMB \$12.5 million, mainly to undertake treatment of industrial wastewater along Huaxi Street and surrounding areas under the BOT model. The wastewater treatment plant covers an area of 40 acres, with an overall designed treatment volume of 50,000 tons per day. The construction is divided into three phases; phases one and two, of a total investment of RMB \$28 million, have a treatment capacity of 20,000 tons per day using UBF AO filter process. Phase one was put into operation in 2006 and phase two in 2013. The plant's pollutant discharge standard is able to meet (GB18918 - 2002) first class "A" discharge standards.

ChangXing LiJiaXiang New Era Wastewater Treatment Co., Ltd

ChangXing LiJiaXiang New Era Wastewater Treatment Co., Ltd is an environmental engineering company with a registered capital of RMB 4.8 million, financed by AngWei Environmental Ecological & Engineering (Shanghai) Co., Ltd to undertake a centralized wastewater treatment plant in LiJiaXiang Industrial Town under the BOT model. As of 2007, the Company has accumulated a total investment of about RMB 20 million and able to treat 20,000 tons of wastewater per day and recycle 10,000 tons per day.

As of April 2015, the Company invested close to RMB 10 million into the construction of Phase Three. Operation commenced in October 2015 with a treatment capacity of 40,000 tons per day. The plant's pollutant discharge standards are able to meet (GB18918 - 2002) first class "A" discharge standards.

Shuanglin (Huzhou) Wastewater Treatment Co., Ltd

Shuanglin (Huzhou) Wastewater Treatment Co., Ltd is a joint venture by three companies: AnnAik Limited Singapore, Shanghai Jieshe Industrial Co. Ltd., and Huzhou Shuanglin Shuanghua Sewage Treatment Pipe Network Limited. With a registered capital of RMB \$16 million, the company undertakes the treatment of domestic and industrial wastewater in Shuanglin town, Huzhou under the BOT model. The plant has an initial investment of RMB \$33 million and a total designed treatment capacity of 50,000 m³/d. Phase one of the plant has a treatment capacity scale of 25,000 m³/d, and was put into operation in 2009. Phase two (operations to be commenced in 2020) is designed to accommodate an additional 25,000 m³/d. Utilizing a two stage biological treatment process of UBF + A/O + filtration technology, the plant's pollutant discharge standards are able to meet (GB18918 - 2002) first class "B" discharge standards. In 2011, the plant underwent an upgrading of discharge standards and is currently able to meet (GB18918 - 2002) first class "A" discharge requirements.

ChangXing LinSheng Wastewater Treatment Co., Ltd

ChangXing LinSheng Wastewater Treatment Co., Ltd, located in Zhejiang province Changxing County Town Industrial Park, is invested, constructed and operated by AnnAik Limited as an one-stop professional wastewater treatment company. The company was founded in 2007 with a registered capital of USD \$1 million; it mainly concentrates on the central wastewater treatment facility for industrial and domestic wastewater for the town and surrounding areas. The plant has a designed treatment capability of 20,000 tons per day. Phase one, with an investment of RMB \$10 million, is designed with a daily processing capacity of 10,000 tons of wastewater per day. Phase one covers an area of 13 acres with 8 structures, the main wastewater treatment plant takes up 2688m², including a 350m² administrative building and a sewage lifting pump station. The treatment process utilizes an activated sludge treatment disinfection process, with effluent discharge standard able to meet (GB 18918-2002) level 1 Grade “A” discharge standards.

ChangXing WuSheng Wastewater Treatment Co., Ltd

ChangXing WuSheng Wastewater Treatment Co., Ltd is a professional sewage treatment company invested, constructed and operated by ChangXing LinSheng Wastewater Treatment Co., Ltd, located in the industrial area south of Wushen Town, Changxing County. The company, founded in 2007 with a registered capital of RMB 4 million, is mainly responsible for industrial wastewater treatment of ChangXing City South Industrial Zone and municipal wastewater in the town and its surrounding areas. The plant's total design scale of wastewater treatment is 20,000 tons per day. Covering a total area of 19.6 acres, phase one of the plant has an initial investment of RMB 10 million and a designed daily processing capacity of 10,000 tons of wastewater. The treatment process utilizes a combination of coagulation, sedimentation, hydrolysis, A/O process and tertiary wastewater treatment. Effluent discharge standards are able to meet (GB 18918-2002) level 1 Grade "A" discharge standards.

Changxing AnYi Water Treatment Co., Ltd

1. Project name: Changxing AnYi Water Treatment Co., Ltd
2. Project location: Lijiaxiang District Industrial Town, Changxing County (Jiang Jia Dai village, Shen Wan Village, QiJiaShan)
3. Project company: Changxing AnYi Water Treatment Co., Ltd (Total investment: RMB 20 million)
4. Investor: ChangXing LiJiaXiang New Era Wastewater Treatment Co., Ltd
5. Design company: Shaoxing Municipal Design Co., Ltd.
6. Construction company: Zhejiang Chen Yue Construction Co., Ltd.
7. Project info: Shen Wan Village water reclamation project with treatment capacity of 25,000m³/d is expected to be completed and operational by October 2016. QiJiaShan water reclamation project with treatment capacity of 10,000m³/d is expected to be ready for operations by December 2017 in order to satisfy water reclamation requirements of a water jet loom factory. Treatment units required by water reclamation system: Lifting shaft, primary settling tank, aeration tank, second settling tank, third settling tank, intermediate pool and sludge treatment system.
