

## **Beach Cleanup**

On 14 June 2018, 15 volunteers gathered at East Coast Park for a beach cleanup activity.

The aim was to help sustain a beautiful natural environment so as to make the beach and barbeque areas suitable for one's enjoyment.

With the weather in their favor, the volunteers split into groups and combed through the grass and sandy areas. They covered an area about 350m x 120m, spending 2 hours and collected 10 bags of garbage.

The Company thanks the volunteers and National Environment Agency for giving it an opportunity to play a part to create a clean environment.
